## Notes from IT

### Spam versus Phishing

Spam emails are usually defined as unsolicited emails from someone trying to sell you something. These emails are not trying to get sensitive information from you. They are mostly annoying and can be vulgar.

Phishing emails typically ask you to verify personal information such as passwords, credit cards, or bank account numbers. There is usually a link embedded in the email or an attachment which can install malware or ransomware on your computer.

The Phish Alert button in your Outlook email should be used for phishing emails and not spam emails. Spam emails may simply be deleted. Thank you for your continued vigilance with email security!

# Faces of Oconee County

# Welcome!

Allison Burns is the Assistant Director of the Oconee County Senior Center. Allison started volunteering at the Senior Center in 2015, and she was officially hired in February 2016. During her time at the Senior Center, she has also served as the arts and crafts teacher and the activities and events coordinator.

Allison says her favorite part of her job is coming up with activities and events that seniors will find fun and entertaining. She constantly strives to make the Senior Center a fun and enjoyable environment. Allison says she also loves working with her colleagues.

“Allison is the quintessential employee,” says Senior Center Director Merry Howard. “She is such an asset to the community and a blessing at the Oconee County Senior Center. Allison has a passion for her work and for making everyone feel successful at whatever they are trying to accomplish; she is a SUPERSTAR!”

Thank you, Allison, for all you do for Oconee County!

We would like to extend a warm welcome to our newest colleagues - we are so glad you have joined us!
