## GIS Introduces Open Data Portal

Oconee County GIS is excited to introduce the OpenGIS data portal. The goal of the new portal is to provide instant access to all of our publicly shareable GIS datasets.

In this initial release, GIS has provided its most requested datasets, but will look to expand this in the future to include imagery, topography, and many other datasets, so please be sure to check in often. If you have any thoughts or feedback you'd like to share, take the survey at the bottom of the portal page! You can browse the collection at [www.oconeecounty.com/openGIS](http://www.oconeecounty.com/openGIS).

## Biometrics Screenings

Biometrics screenings will take place from 8 a.m. to 11 a.m. on the following dates:

- June 19 - Administrative Building
- June 20 - OVP
- June 25 - Courthouse
- June 27 - Administrative Building

For assistance with sign up, please contact Human Resources.

## Upcoming Change To Desktop Login Procedure

This month I wanted to inform everyone about an upcoming change to how everyone logs into county computers. This change is being made at the recommendation of Homeland Security. In the near future, when you unlock your desktop, you'll need to enter both your username and password instead of just your password. Your username is everything before the @ symbol in your county email address. For example, bob@oconee.ga.us would have the username bob.

This article is just an early notice to keep you informed. We'll be rolling out this new login process in the coming weeks. We will provide notice again closer to the rollout to make the switch as easy as possible.

Thanks for your understanding as we work to keep our systems secure.

Justin Milligan  
IT Manager
