Great share from our friends on the coast. And yes indeed, we do all live downstream! #littercosts

Keep Golden Isles Beautiful

May 27, 2020

Keep Golden Isles Beautiful STORM DRAIN AWARENESS & EDUCATION - Storm drains are designed to manage excess roadway water due to heavy rains. Everything that is swept or poured into a storm drain inlet will eventually end up in our local water supply. Over 230 storm drain outfalls exist in the Golden Isles.

Water that enters a storm drain flows DIRECTLY into our creeks, streams, salt marshes and ocean with NO treatment. Storm drains are different than sewers; they are not connected to a treatment plant. Disposing of hazardous waste in a storm drain can be extremely harmful.

WE ALL LIVE DOWNSTREAM; THE RIVER BEGINS AT YOUR DOOR.

Even if you live miles away from a river or stream, you may be polluting the water without even knowing it. Anything that enters a storm water system is discharged untreated into the water bodies we use for swimming, fishing and drinking water.

Help protect lakes, streams, rivers, wetlands, salt marshes and coastal waters by PRACTICING HEALTHY HOUSEHOLD HABITS and keeping common pollutants like pesticides, pet waste, grass clippings and automotive fluids off the ground and out of storm water.

Keep Golden Isles Beautiful provides educational materials and messaging regarding storm drain usage -- encouraging the proper use of storm drains and discouraging the depositing of any materials or liquids into the drains themselves.

STORM DRAIN MARKING VOLUNTEER OPPORTUNITIES EXIST and are great experiences for students and youth groups. To learn more: info.kgib@gmail.com / KGB.ORG / 279-1490.

Unfortunately these hard afternoon showers have enough impact to wash our litter of all kinds into our waters.

How does a nice refreshing glass of litter and cigarette butts sound?

#reconsiderlitter #littercosts #waterislife #noifsandsorbutts

Keep Golden Isles Beautiful

July 1, 2020 · 🌐

GEORGIA'S COAST IS NOT AN ASHTRAY - Cigarette butts are the nation's number one most littered item. Tossed butts end up in storm drains and eventually are washed into coastal waterways and the ocean. This plastic toxic litter endangers coastal habitats and their inhabitants. Georgia's coast is NOT an ashtray. Please properly dispose of cigarette butts and help keep our coastal area clean and green. For more info: georgiascoastisnotanashtray.org
