Subject: Rivers Alive 3rd Annual Trashy River Float data for 2020

Amy-

We let KACCB include our stats in their date RA report because of the 8 miles, just over 3 are in Clarke County and we do this during RA timeframe.

Due to the pandemic, RA was a month long event and had some organized and individual cleanups. Our KOCBC TRF removed 740#(37 bags) and 32 tires from an 8 mile stretch of river. 12 volunteers spent a combined 84 hours doing cleanup.
