

# OCONEE COUNTY SHERIFF'S OFFICE

## REQUEST FOR SPEED DETECTION DEVICES

The Oconee County Sheriff's Office has Speed Detection Signs that can be placed in most neighborhoods or along county roads where there is existing signage.

These signs only record speed data, not license plate information. They do not issue citations! The signs are typically left in a location for a week to gather the data which shows average speed, max speed, times, and number of vehicles that have travelled through.

To request placement of the signs, please fill out the form below.
